

Dear Hiring Managers,

I'm writing to express my interest in working at your company. After gaining valuable experience with developing strong organizational skills and deep understanding of the team dynamics in Arm from the last 2 years, I am confident I can make a meaningful contribution to your organization as well as your team.

I have been working in Arm for two years and it has been an incredible experience for me which has helped me grow professionally and personally. I have primarily worked in the client line of business with various partners like Qualcomm, Google, Nvidia and developed the systems for TC24 Class A CPU series & Auto CPUs.

After working for more than 4 years in the semiconductor industry, I have gained expertise in Verilog for digital design, design verification using SystemVerilog, C and UVM. Furthermore, I have also acquired skills in CPU Architecture, Python and Perl scripting and Arm v8 and v9 architecture.

I have always been passionate about the VLSI industry and I want to further my career by working in a leading organization. I am ambitious and hardworking and always aim to achieve goals I set myself to achieve success in my career.

I believe the skills & experience I possess not only shall bring value to your organization, but in turn shall also help me to acquire experience & sharpen my skills amidst your organization's professional work culture. If given an opportunity I positively look forward to giving my best to your organization.

I request you to kindly peruse my resume attached with this application and consider me for the advertised position. Looking forward to hearing from you.

Best regards,

Najimun Ahmed
