

Dear Ahead Computing Team,

I hope this message finds you well.

I'm writing to express my strong interest in career opportunities at Ahead Computing. As a Masters graduate in Computer Engineering from Syracuse University with experience in physical design, RTL development, and verification, I am excited about the opportunity to contribute to your mission of building high-performance RISC-V CPUs.

Im particularly excited about Ahead Computings focus on cutting-edge RISC-V architecture and the potential to help shape scalable and efficient compute solutions using open-standard instruction sets. The opportunity to be part of a team developing performance-driven CPU cores from the ground up, with a strong emphasis on design automation and silicon efficiency, is especially inspiring to me.

With hands-on experience in EDA tool flows, TCL, Python scripting, and low-power SoC designs, Im confident I can contribute effectively to your dynamic and fast-paced engineering environment.

Please find my resume attached. I would love the opportunity to discuss how I can support your innovative roadmap.

Thank you for your time and consideration.

Regards,

Varshini Narayana
