

## Summary:

Siddharth Mohan is an Electrical Engineer with a Masters from University of California, San Diego (UCSD) in Electronics Circuits & Systems. He has 11+ years of industry experience ranging from PCB to Chip level design, analysis, testing and productization. He has worked with notable companies like Cadence, Keysight, Qorvo, Intel, and Globalfoundries India.

Name: Siddharth Mohan

Email: smohan@ucsd.edu

Phone: +1-858-319-5451

Location: San Jose, CA

Country: USA

Position Category: Design: Logic design, Design: Physical Design, Verification: Design verification

Desired Job Role: Senior Electrical Engineer

University: University of California, San Diego, BITS Pilani, Pilani Campus

Degree: MS (Masters) in ECE, B. E. (Hons.) Electrical & Electronics

Graduation Year: 2023, 2011

Years Experience: 11

Notable Companies: Cadence, Keysight, Qorvo, Intel, Globalfoundries India, Tata Steel Ltd. India, Kritikal Solutions Pvt. Ltd. India

Top Skills: Design, Verification and Validation of Analog & RF blocks, IC-Package Co-design & Co-simulation Enablement, Product Engineering for Reliability EDA module, Designing & Automating SPICE simulation models, Design, Development & Testing of circuit for plant automation, FPGA design EDA tools

Job Intention: full-time

Visa Status: legally authorized to work in the USA

Able: no

Subject: Request to be part of the team

Date Sent: 03-11-2025

Resume: Yes
