

Hi

I hope this email finds you well. My name is Phani Teja and I am currently a graduate student pursuing my Masters degree in Computer Engineering with a specialization in Computer Architecture at USC. I will be graduating next month, and I am eager to explore career opportunities in the field.

Throughout my studies, I have worked on projects related to Tomasulo Out-of-Order (OOO) execution, which has deepened my understanding of computer architecture. Additionally, I have served as a Teaching Assistant for the Computer Organization course, where I helped students understand complex concepts and supported them through practical exercises. I also have some professional work experience on power optimization.

I am reaching out to inquire if there are any current or upcoming opportunities that align with my background and skills. Please find my resume attached for your reference.

Thank you for your time and consideration. I look forward to hearing from you.

Regards

Phani Teja
