

Hello Team,

I wanted to know about any open job positions at Ahead Computing, and I would like to share my resume with you, for the same. I am a New College Graduate (NCG) from Texas A&M University, College Station. I have completed my Masters of Science degree in Computer Engineering.

I am currently working at Changing The Present firm, as a Computer Engineer and I have completed multiple courses and projects in the Front-End as well as Back-End Digital VLSI and Computer Architecture domain during the course of my Bachelors and Masters Degree. I feel that my career path and interests match with that of the job roles at Ahead Computing.

I have attached my resume that includes all the projects that I have completed. I appreciate your assistance with this. Also, I am available for immediate joining on F1 - OPT VISA as a contract or a full time employee as well.

Looking forward to your response.

Thank You

Regards

Anurag Desai
