

I hope this message finds you well! My name is Destynn Keuchel, a junior from UPenn studying Computer Engineering and Materials Science and Engineering.

I am quite interested by the RISC V development work at AheadComputing - I am currently working on designing power-optimized ALU and memory circuits and would like to explore the possibility of an internship this summer at AheadComputing.

I am also part of the

UPenn Engineering Entrepreneurship Fellows Program

, where we study innovative ventures, and I would love to learn about how AheadComputing is functioning at such an early stage.

Could I talk to an engineer or manager at AheadComputing to learn more about the company?

Thank you!

Destynn Keuchel

Hi,

I am just following up on this. I would love to learn more about AheadComputing. I have attached my resume to this email.

All the best,

Destynn

Hi,

I hope you are doing well - I am checking in again to see if I could get in contact with an engineer at AheadComputing.

Thanks!

Destynn Keuchel
