

Dear Hiring Team,

I hope you are doing well. I am writing to express my interest in the engineer position at Ahead Computing, as I am deeply excited about the opportunity to contribute to your innovative work in high-performance RISC-V CPUs. With a strong background in physical design, EDA tools, and scripting, I believe my skills align well with the responsibilities outlined for this role.

I have experience working with EDA tools such as Synopsys, Cadence, and Mentor Graphics, and have developed expertise in scripting languages like TCL and Python, which I have used to automate design flows and optimize performance in previous projects. Additionally, my hands-on experience in the areas of static timing analysis, placement, routing, and PPA optimization has prepared me to make valuable contributions to your team.

I am eager to bring my technical expertise and enthusiasm to a dynamic and fast-paced startup environment like Ahead Computing, and I am confident that my background and passion for innovative hardware design make me a strong fit for the role.

Please find my resume attached for your review. I would welcome the opportunity to discuss my qualifications further. Thank you for considering my application. I look forward to contributing to Ahead Computings mission.

Best regards,

Chandan Gireesha
