Dear Hiring Team,

Im Devesh Jani, currently pursuing my masters at NC State University with specialization in Computer Architecture and VLSI, and Ive been following the impressive work your company has been doing, particularly in ASIC Design and Design Verification.

I would love the chance to discuss how my experience can support

AheadComputing

in the Intern role for Summer 2025 or Fall 2025 Co op, or any other openings that may align with my background.

If there arent any current openings, Id still be happy to share why I could be a good fit. I know you likely receive numerous inquiries, but Id appreciate the opportunity to connect.

Thank you for your time! I have attached my resume for reference.

Best regards,

Devesh Jani
