Hi,

I am Suhrud Kelkar and I am currently working as a Design and Verification Engineer at Intel, Oregon.

I work on design and verification of the DDR IO IP on our testchip. This includes digital and formal verification of the complete high speed IO.

I am looking for some new exciting opportunities in the fieldof design verification.

I found an interesting position on yourwebsite for a Formal verification engineer.

I think i'd be a good fit for this position.

Please let me knowif you are still hiring.

Please find myresume attached.

Thank you.

Suhrud Kelkar.
