Hello,

I am a senior undergraduate Computer Engineering student at the University of Illinois Urbana-Champaign looking for roles related to Computer Architecture and Systems. I have extensive coursework dealing with computer architecture/systems , digital design, and emerging memory systems. I would like to be considered for Ahead Computing's CPU Performance Architect role and any other roles you may deem fit my background.

I have solid academic experience with RISC-V CPU design, and I am motivated and ready to work on important work in the semiconductor field. I've attached my resume to this email.

Please feel free to reach out to me via email or phone (708-400-4691).

Thanks,

Sam Ayodiran
